

Journey To Success

Transforming Organizations & Empowering People

"We receive exactly what we expect." - Pegine Echevarria

Brief Summary

Your future is in your hands. You can stay stuck in your current situation or you can change. You can remain angry, a victim or choose to continually avoid success or you can live a different life.

Pegine's story of abandonment, (her father abandoned her at the age of 12) gangs, drugs (Pegine's sister died of a drug overdose), educational failure and transformation inspires others. The program isn't about Pegine it is about you and your successes.

How can you increase your productivity, your sales, and your success? What did Pegine learn that you can apply today, right now to your life? The presentation is about the internal changes that everyone needs to make so that everyone can be the person that they were meant to be.

Pegine was able to overcome her past to become a successful in business, leadership and sales as well as being a guest expert for magazines and TV shows.

She shares the lessons learned and the success tactics she and others use to overcome the odds and win. The program reflects Pegine's internal belief that we all must be leaders in our lives, work, family and community. We are each responsible to change and grow so that we can accept the blessings of success and share it with others.

Selected Points:

- The power of perseverance
- How to get out of your head & get into the game
- The importance of faith
- Your thoughts count – positive & negative
